Scenes

Characteristic tiles

Scenes is characterized by a gradual build-up of colors, hues, and textures. Each tile has its own character and identity, creating natural layered dimensions. By applying the tiles individually or in combination, scenes are created automatically. This offers endless possibilities for variation. The tiles can be used in both smaller and larger spaces. The desired character is always achieved.

The collection comprises eight natural, cool, and warm color groups: from dark anthracite to warm ochre. For an intense color perception and depth, each color group comprises four different textures: grain, clay, sand, and grit. Refined effects are created in the pattern thanks to the interplay of textures.

The variation possibilities are enlarged: in addition to 6 x 6 inch, the characteristic tiles also exist in 12 x 24 inch, 24 x 24 inch, and 36 x 36 inch. These formats are perfectly suitable for designing large spaces and can be applied in combination with the smaller format of 6 x 6 inch, guaranteeing that Scenes always fits. The tiles provide endless options to design a space with a distinct personality.
