#### CHARREDSTONE COLLECTION

\* Printed colors are not exact. Please call for a physical sample.

#### General Information

CharredStone is an interior wall cladding material designed to emulate the popular look of charred timber with the durability of PaperStone. Lightweight and easily milled to desired sizes, CharredStone is an excellent material for feature walls or to create a dramatic backdrop in a space to draw attention to other room features.

The texture of the material offers a warm, wood like feel with all of the great features of PaperStone surfacing.
