70% POST CONSUMER RECYCLED GLASS

SUGGESTED APPLICATIONS

- Walls
- Counters
- Light Duty Floors
- Pools
- Steam Showers & Spas
- Exterior areas including freeze-thaw

ASTM RESULTS

TEST #	TYPE OF TEST	IRIDESCENT	SILK
C1027	Resistance to Abrasion	Class 2 (Residential)	Class 5 (Commercial)
C1028	Coefficient of Friction	Dry .78 / Wet .40	Dry .76 / Wet .60
C648	Breaking Strength	265 lbf	265 lbf

KEY USAGE & INSTALLATION NOTES

- Mount Vihara sheets with the paper facing out
- Remove paper after mosaic has been seated into thin-set
- Make sure glass tile is installed over the proper substrate
- Use a bright white thin set which allows the true color of the glass to come through
- Prior to grouting, 1-3 coats of grout release may be applied to ease clean-up
- Continually clean excess grout from the surface as work progresses
- Refer to sealer and grout manufacturer's instructions

See Tech Info at sonomatilemakers.com for more information

PRODUCT INFORMATION

HANDCRAFTED CHARACTERISTICS

Vihara glass tiles are made with the intention that there is variation in color, shade and surface texture from piece to piece. Surface folds, shallow cracks and minor edge irregularities (including occasional chipped sides/edges) are natural characteristics of Vihara and should be expected. Samples and photos provided are representative, but may not indicate all variations of these characteristics. Once properly installed, the beauty of this handcrafted glass is enhanced by such variation.

INSPECTION AND INSTALLATION

Always inspect your tiles before they are installed, as installation of material constitutes acceptance. Any questions as to acceptability must be resolved before installation. We are in no way responsible for the installation of our tiles or thereafter. The responsibility for correct installation rests with the end user.
